## How Can I Best Utilize the Family Collection - Individual Records Database?

These results have now been sorted into Birth, Marriage, and Death categories. Due to the lack of documentation, treat this information like a secondary source, but use it to record possible birth, marriage, and death dates and names, and other possible information that could be listed. Then, with the new names you may have collected, visit census records and vital records to confirm information and find clues to additional details.

If a search in the Given Name and Surname field turns up no results, try searching for the same name in the Spouse Given Name and Spouse Surname field as well.
